# 4Q 2024 Public Safety & First Responders

The Public Safety / First Responder Technology & Services M&A market is experiencing resilient transaction volumes in 2024 as investors continue to value emerging technologies that reduce costs, increase efficiency and improve service quality.

Investors are paying outsized transaction multiples as software and service offerings continue to evolve across all levels of government. Technology once reserved for military applications is now being adopted by first responders to better safeguard their communities.
