2021 Mid-Year Outlook: Test & Measurement and Industrial Automation

Primary influencers on the sector

Equity returns and valuations across the test & measurement and industrial automation (TM&IA) sector have continued to extend through 1H2021. As global economies are reopening and growth accelerates, demand for TM&IA solutions have rebounded from the 3Q2020 trough. A key area we are going to watch during 2Q earnings session is the impact of supply chain disruptions on converting growing order books and backlogs to revenue, and margin impact given rising input costs. The mission critical nature of the TM&IA solutions should allow many of the market leaders to pass price increases through to customers and maintain strong margin profiles.

CHART 1: EQUITY PERFORMANCE (2018 – CURRENT)¹
